Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

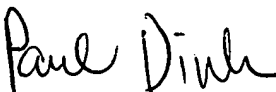

Claims 1-20 are allowed because the prior art of record does not teach or suggest a method/system/product for performing density checking on an integrated circuit (IC) design, the method/system/product comprising the steps/means/codes of: establishing an evaluation array including an array element for each evaluation window of the IC design, wherein a number of evaluation windows is based on a smallest necessary granularity; performing a single pass through shape data for the IC design to populate each array element with a shape area of a corresponding evaluation window; and performing density checking by iterating over the evaluation array using a sub-array.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
